

RECEIVE MESSAGES FROM YOUR DOCTOR IN YOUR INBOX

OUR CLINIC NOW OFFERS PATIENT MESSAGING

This secure service helps our Patients and Doctors connect online. Here's how:

- When the Doctor sends a message to you, a notification will appear in your email inbox. Click the button that says "View Secure Message."
 - This link takes you to Medeo Virtual Care. You will be asked to either Sign-up or Log-in.
 - The Medeo dashboard provides recent activity including your new message.
 - Your Doctor will determine if you can reply to the message or not. If a reply is requested, you can upload photos or documents as necessary.
 - Your Doctor will end the message thread when complete.
- *In an emergency, please call 911 or go to the emergency room.*
 - *For assistance with technical issues on Medeo, please go to medeohealth.com/medeopatientsupport*

Not every appointment needs a visit...
