

Vision Health & Foot Health Month

Blood Pressure Awareness

Hypertension is another word for high blood pressure. Blood pressure is the amount of pressure forced on the walls of our arteries. Too much pressure can be hard on our heart and cause damage to our arteries.

Eye Health and Ways to Prevent Vision Loss

Vision Health Month is a great time to raise awareness about eye health and ways to prevent vision loss. A regular eye exam by a doctor of optometry is the best way to stay on top of eye health. Did you know that 1 in 7 Canadians will develop a serious eye disease in their lifetime?
